

Groove Joint Pliers Set

This 2-piece groove joint pliers set provides versatile gripping and adjusting capabilities. Constructed with durable materials, the pliers feature adjustable jaws and ergonomically designed handles.

Product Overview

Professional Groove Joint Pliers Set

This 2-piece groove joint plier set is engineered for versatile gripping and adjusting tasks in demanding environments. Constructed from high-quality carbon steel that is drop-forged and heat-treated, these tools offer exceptional durability and long-lasting performance. The ergonomic double-color handles are designed to minimize hand fatigue, making them ideal for plumbing, automotive repairs, and general maintenance.
