

Grout Finishing Tool Set

This set contains two grout finishing tools for smoothing and shaping grout lines. The tools are made of flexible material with different corner radii, suitable for various grout line profiles.

Product Overview

Professional Grout Finishing Solution

This grout finishing tool set is designed to help professionals achieve smooth, uniform grout lines with ease. The tools are crafted from a flexible material, allowing them to adapt to different corner radii and grout line profiles without scratching or damaging surrounding tiles. By eliminating the need for smoothing agents, masking tape, or extensive post-work finishing, this kit significantly streamlines the tiling process.

Technical Details

Set Contents

- 2 x Grout finishing tools
- Various corner radii profiles

Material Characteristics

Flexible, Non-scratching, Durable

Product Code

FN-1349

EAN/Barcode

6954316113493

Usage Benefits

Efficiency Features

No smoothing agents needed • No masking tape required • No post-work finishing
