

GSM Feature Phone with Keypad

This GSM feature phone is designed for simple communication. It features a numeric keypad, color display, and basic calling functions.

Overview

Reliable Communication Solution

This GSM feature phone is designed for users who prioritize simplicity, durability, and reliable communication. Featuring a classic numeric keypad and a clear 2.4-inch display, it offers a straightforward user experience without the complexities of modern smartphones. With dual SIM standby capabilities and support for essential multimedia functions like MP3 and MP4 playback, it serves as an excellent, cost-effective tool for professional or personal use.
