

GT2259LS Turbocharger

The GT2259LS turbocharger is engineered for optimal performance in automobile engines. This turbocharger enhances engine power and efficiency by forcing more air into the combustion chamber, leading to increased horsepower and torque.

Product Overview

High-Performance Turbocharger Solution

The GT2259LS turbocharger is precision-engineered to enhance engine performance, power delivery, and overall efficiency for Hino excavator construction applications. By optimizing airflow and boost pressure, this unit significantly improves horsepower and torque responsiveness under demanding working conditions. Its robust design ensures durability and reliability, providing a stable solution for heavy-duty automotive engine requirements.

Technical Specifications

Power Rating

170 HP

Rated Horsepower

Model Identifier	GT2259LS
Engine Model	J05E-TA / JO5E
Displacement	5.3 L
Cylinders	4

Compatibility & Reference
