Overview

Smart Illumination for Modern Spaces

This 4.5W smart LED bulb with a GU10 base offers an energy-efficient alternative to conventional lighting, delivering 350 lumens of high-quality light. Designed for seamless smart home integration, it supports both app and voice control via Amazon Alexa and Google Assistant, allowing for easy dimming and color customization. With a 15,000-hour lifespan and a beam angle of 96 degrees, it is an ideal choice for indoor applications.

Technical Specifications

Key Performance Metrics

4.5 W

Power Consumption

350 lm

Luminous Flux

15000 hrs

Rated Lifespan

96 °
