

GU5.3 Base CFL Lighting Source with Electronic Ballast

This lighting source uses a compact fluorescent lamp (CFL) with a GU5.3 base. It includes a white electronic ballast designed for stable and efficient power, ensuring a long lifespan.

Product Overview

Compact Fluorescent Lighting Solution

This lighting source features a GU5.3 base paired with an integrated electronic ballast, designed for efficient and reliable performance. It is engineered to provide stable power delivery to the CFL bulb, ensuring an extended operational lifespan. This unit is suitable for various lighting applications requiring a standard GU5.3 interface.

Technical Specifications

Base Type	GU5.3
Rated Voltage	250 V
Capacitance	0.22 μ F

Standards and Compliance

Certifications	CE, ROHS
Standard Reference	IEC60931-2008
