Overview

Professional Patrol Management System

This advanced guard tour patrol management system is designed for robust security monitoring and personnel accountability. Featuring integrated RFID reading, walkie-talkie functionality, and real-time data transmission via Wi-Fi and USB, it ensures efficient and reliable patrol operations. The device is built for harsh environments with IP67-rated protection, offering long-lasting performance with a high-capacity battery and fast-charging capabilities.

Technical Specifications

The device features a ruggedized design with an OLED display, SOS button, and magnetic USB port for reliable operation.

Supports high-speed data transfer via Wi-Fi and USB to streamline post-capture workflow.

Physical Dimensions & Weight

Performance Metrics

Feature	Specification
IP Rating	IP67
RFID Frequency	125 KHz
Reading Speed	10,000 pieces/min
Reading Distance	> 3 cm
Data Storage	60,000 pieces
Operating Temperature	-40°C to +85°C

Power & Battery

High-capacity battery with fast charging ensures the device is ready for long shifts.

Battery Performance

3700 mAh
Capacity

1.5 hours
Charging Time

2 days
Standby Time

Features

WM-5000K - RFID - Walkie-Talkie - Channel monitor

With built-in RFID reading, WM-5000K now adds you patrol with different walkie-talkie function which makes security guard communicate more easily and fluently. And with channel monitor, you don't need to worry about your security guard chat-chat during the patrol.

WiFi transmit RFID Reading Voice Prompt Mandom

Alarm Clock Flashlight Impact Records Fast charging

Integrated walkie-talkie and channel monitoring features improve communication efficiency between security personnel.

Hearing Your Guard Tour Device Voice

Equipped with voice prompt function, it prompts the working status of the device in real time.

Real-time voice prompts provide immediate auditory feedback on device status, alarms, and network connectivity.

Key Functionalities

Wi-Fi Connectivity, USB Data Transmission, Walkie-Talkie Function, Voice Prompts, Man-Down Alert, Flashlight, Thermometer, Impact Records, Alarm Clock
