Product Overview

High-Performance Off-Road Lighting

This H7 halogen bulb is engineered for demanding off-road environments, delivering superior brightness and an extended, wide beam pattern. Built with high-performance quartz glass and enhanced vibration resistance, it provides reliable illumination similar to HID lighting for improved visibility. The design includes a blue-tinted tip for a stylish, xenon-effect aesthetic that ensures comfortable driving conditions.

Technical Specifications

Voltage

12 V

Socket Type

H7

Features & Construction

Key Features

- Maximum vibration resistance
- High-performance quartz glass
- Xenon-effect blue tint
- Wide and long beam pattern

Application

Off-Road Use Only, High Performance
