

H8x48mm Magnetic Nut Setter

This H8x48mm nut setter is designed for use with power drills and impact drivers. Its magnetic design ensures a secure grip, preventing slippage during fastening applications.

Product Overview

Industrial Magnetic Nut Setter

This high-quality magnetic nut setter is engineered for seamless integration with power drills and impact drivers. Constructed from durable Taiwan S2 steel, this industrial-grade bit is designed for long-lasting performance and reliability in demanding fastening applications. The integrated magnetic design ensures a secure grip on fasteners, effectively preventing slippage during operation.

Technical Specifications

Material	Taiwan S2 Steel
Magnetic	Yes
Item Number	00061
Certifications	RoHS
