Overview

Versatile Halogen Convection Cooking

This halogen convection oven is a highly versatile kitchen appliance designed for efficient roasting, baking, and grilling. Featuring a transparent glass bowl, it allows users to easily monitor the cooking process without heat loss. With adjustable temperature controls and a built-in fan for hot air circulation, it ensures fast, even, and consistent results for a variety of culinary tasks.

Technical Specifications

Temperature Range

125 °C

Minimum Temperature

250 °C

Maximum Temperature

Cooking Modes

Roasting, Baking, Grilling

Design & Features

Key Design Features

- Transparent glass bowl for easy monitoring
- Detachable control unit
- Adjustable timer controls
- Power indicator light
- Heat indicator light

Heating Technology

Halogen Heating • Forced Air Convection
