Product Overview

Versatile Halogen Cooking Technology

This halogen cooking oven provides a multifunctional and energy-efficient solution for modern kitchens. By utilizing advanced halogen heating technology, it circulates hot air to cook food evenly and up to 2-3 times faster than standard ovens. The transparent, tempered glass bowl allows for easy monitoring of food, while the intuitive timer and temperature controls ensure perfect results for roasting, baking, grilling, and steaming.

Technical Specifications

Power Requirements

220 V

Voltage Min

240 V

Voltage Max

1400 W
