

# Halogen Reflector Lamp for GZ GU10 Fittings

This halogen reflector lamp is designed for use with GZ and GU10 fittings. It features a multifaceted reflector that efficiently directs light output for enhanced brightness.

## Product Overview

### High-Efficiency Halogen Reflector Lamp

This halogen reflector lamp is precision-engineered for compatibility with standard GZ and GU10 fittings. It features a high-quality multifaceted reflector design that optimizes light distribution, ensuring superior brightness and focused illumination. Ideal for professional environments, these lamps are a reliable choice for track lighting, recessed ceiling installations, and accent lighting applications where directional light control is essential.

## Technical Specifications

Fitting Compatibility	GZ, GU10
Light Distribution	Multifaceted reflector for directional focus

## Applications

### Recommended Applications

- Track lighting
- Recessed lighting
- Accent lighting
