

Halogen Space Heater

This compact halogen heater is designed for personal or small space heating. It uses halogen bulbs to generate radiant heat and includes safety features such as a tip-over switch and overheat protection.

Product Overview

Compact Radiant Heating Solution

This halogen space heater is designed for efficient, directional warmth in personal or small office environments. Featuring a compact and portable form factor, it utilizes advanced halogen bulb technology to provide immediate radiant heat. Built with safety in mind, the unit includes essential protections such as a tip-over switch and overheat protection, making it a reliable choice for professional workspace heating.
