

Handheld Bolt Cutter

This bolt cutter is designed for cutting bolts, rods, and wires. It features high-leverage handles for increased cutting power and hardened steel jaws for durability.

Overview

Heavy-Duty Cutting Performance

This handheld bolt cutter is engineered for demanding tasks, capable of slicing through bolts, rods, and wires with ease. Designed for construction, industrial, and DIY environments, it features high-leverage handles that maximize cutting force. The hardened steel jaws ensure long-lasting durability, while ergonomic grips provide the necessary comfort and control for extended use.

Technical Specifications

Cutting Capabilities

- Bolts
- Rods
- Wires

Jaw Material	Hardened Steel
Applications	Construction, Industrial, DIY
