

Handheld Car Vacuum Cleaner

This is a handheld vacuum cleaner designed for car interiors. It features a DC 12V power supply and provides 3.6 Kpa of vacuum strength.

Product Overview

Compact Power for Vehicle Maintenance

The XC6003C is a highly efficient handheld car vacuum cleaner designed specifically for vehicle interior maintenance. Operating on a DC 12V power supply, it provides a consistent 80W output to tackle dirt and debris with a reliable 3.6 Kpa vacuum strength. Its lightweight design and extended 1.8m power cord ensure excellent maneuverability, making it an essential tool for professional automotive detailing and individual vehicle care.
