

Handheld Digital RF Power Meter

This is a high-power handheld digital RF power meter. It features a digital display for accurate readings and a handheld design for portability.

Overview

High-Precision RF Measurement

This handheld digital RF power meter is a versatile and high-precision instrument designed for wideband, high-power measurements. Engineered to deliver exceptional value, it serves as a cost-effective alternative to expensive laboratory equipment without compromising on performance. It is an ideal solution for professionals in wireless communications, academic research, and industrial testing environments.

Technical Specifications

Frequency Range	400 MHz - 4.0 GHz
Maximum Power	200 W
Maximum Power (dBm)	51 dBm
VSWR (Typical)	1.05

Key Features

Design Highlights

Handheld Portability • Digital Display • High Precision • Wideband Operation

Measurement Capabilities

Forward Power, Reflected Power, VSWR

Applications

Suitable Industries

- Wireless Communications
- Telecommunications
- Broadcasting
- Academic Research Institutes
- Industrial Testing
