

Handheld Dynamic Microphone with On/Off Switch

This handheld dynamic microphone is designed for vocal and speech applications. It has an integrated on/off switch and spherical mesh grille.

Overview

Professional Vocal Performance

The MA-2688 is a robust handheld dynamic microphone engineered for clear and intelligible vocal reproduction. Designed with a durable metal construction and a protective spherical mesh grille, it is built to withstand the rigors of live performance and public speaking. This unit features an integrated on/off switch for immediate control and is optimized to minimize feedback and background noise.
