

Handheld Garment Steamer

This is a portable handheld steamer designed for convenient use. It features a ceramic-coated steam panel and offers adjustable steam levels.

Product Overview

Professional Handheld Garment Steamer

This high-performance handheld garment steamer provides efficient fabric care with 1400-1600W of power. It features a ceramic-coated heated steam panel and three adjustable steam levels to suit various fabric types. With an integrated anti-dry pump and auto-shut-off functionality, it ensures both safety and consistent results during operation.
