Product Overview

Professional Multi-Surface Cleaning Solution

This handheld steam cleaner provides a powerful, chemical-free cleaning solution by utilizing high-pressure steam to effectively remove dirt and grime. Designed with a robust aluminum alloy internal pipe and durable PP exterior, it ensures longevity and safety for various applications including floors, windows, and textiles. The unit features integrated safety systems, including automatic heating control and pressure release, making it a reliable and environmentally friendly tool for diverse sanitization needs.

Technical Specifications

Performance Metrics

900 W

Power Output

3.5 Bar

Max Pressure

28 g/min

Steam Flow

Electrical Data

Parameter	Value
Input Voltage	220-240V / 100-110V
Frequency	50/60Hz
Cable Length	2M (1.9M visible)

Design and Safety

Physical Specifications

- Tank Capacity: 450ml
- Temperature Switch Setting: 130°C
- Fuse Switch Setting: 172°C
- Exterior Material: PP Plastic
- Interior Pipe: Aluminum Alloy

Available Colors

Red • Yellow • Green • Blue

Safety Certifications and Features

Automatic Pressure Release, Overheat Protection, Automatic Safety Cut-off, Chemical-Free Operation
