

Handheld Pressurized Steam Cleaner

This portable steam cleaner is designed for various household cleaning tasks. It features a handheld design with an ergonomic handle and a steam nozzle with brush attachment.

Overview

Professional Handheld Steam Cleaning

This handheld pressurized steam cleaner offers a convenient solution for diverse cleaning tasks. Equipped with an 850ml transparent water tank, it provides high visibility for monitoring water levels and includes an integrated filter for consistent performance. The robust stainless steel heating plate ensures durability, while built-in overheating protection provides added safety during operation.
