

Handheld Steam Cleaner

This compact cleaning device is designed for household use. It utilizes steam to effectively clean and sanitize various surfaces.

Product Overview

Efficient Cleaning Performance

The Z34 is a versatile, handheld steam cleaner engineered for high-efficiency sanitization and surface maintenance. Its compact, lightweight design ensures superior maneuverability, allowing users to perform quick cleanups or detailed tasks with minimal physical strain. Equipped with a user-friendly, ergonomic handle and a removable cleaning pad, it offers a seamless experience for maintaining household hygiene.

Design and Ergonomics

Design Specifications

- Handheld form factor
