Product Overview

Advanced UV Sanitization

This handheld UV vacuum cleaner is specifically engineered to sanitize bedding, sofas, and upholstery. By combining high-performance suction with integrated UV-light technology, it effectively eliminates dust mites, bacteria, and allergens from deep within fabrics. Its lightweight and ergonomic design ensures effortless maneuverability, making it an essential tool for maintaining a healthy and hygienic home environment.

Key Features

Suitable Surfaces

- Beds
- Sofas
- Upholstery
- Fabric Surfaces

Cleaning Capabilities

UV Sterilization, Mite Removal, Bacteria Elimination, Dust Removal

Design & Usability

Design Highlights

Handheld • Compact • Ergonomic • Portable

Maintenance Features

- Transparent dust container
- Easy debris monitoring
- Integrated charging base
