

Handheld Vacuum Cleaner for Car Interiors

This compact handheld vacuum cleaner is designed for quick and convenient cleaning tasks. It features a transparent dust container for easy monitoring of fill level and is ideal for cleaning car interiors, upholstery, and hard-to-reach areas.

Product Overview

Professional Cleaning Performance

This handheld vacuum cleaner is engineered specifically for the precision requirements of car interior detailing. Its compact and lightweight design allows for exceptional maneuverability in tight spaces, such as upholstery and hard-to-reach crevices. With a continuous power corded operation and a high-efficiency motor, it provides reliable suction for consistent cleaning results.
