

Handsfree Car Kit with Wireless Control

This handsfree car kit allows for convenient, hands-free calling while driving. It includes a wireless control panel, main control unit, and display unit.

Product Overview

Seamless Hands-free Communication

This hands-free car kit enhances driver safety and convenience by providing a dedicated interface for phone interactions while on the road. The system features a wireless remote control for easy operation and a clear display unit for real-time information tracking. Designed for professional use, it integrates seamlessly into the vehicle interior to ensure a distraction-free environment.
