

Hard Floor Steam Mop

This steam mop is designed for cleaning hard floors with steam. It features an adjustable handle and a pivoting head for easy maneuvering on sealed surfaces.

Product Overview

Professional Hard Floor Steam Mop

This high-performance steam mop is designed for efficient, chemical-free cleaning of sealed hard floor surfaces including hardwood, tile, and laminate. By utilizing high-temperature steam, it effectively sanitizes floors and lifts stubborn dirt and grime without the use of harsh detergents. The ergonomic design features an adjustable handle and a pivoting head, ensuring ease of maneuverability and thorough coverage in demanding environments.

Technical Specifications

Compatible Surfaces	Sealed Hardwood, Tile, Laminate
Cleaning Method	High-temperature steam sanitization
