

Hardened Steel Blade Wood Handsaw

This handsaw is designed for efficient cutting of wood and other similar materials. It features a hardened steel blade with precision-ground teeth for smooth and accurate cuts.

Product Overview

Professional Wood Handsaw

This hardened steel blade handsaw is engineered for efficient wood cutting in demanding professional environments. Featuring precision-ground teeth, it ensures smooth and accurate cuts for woodworking, carpentry, and general construction tasks. The ergonomic handle design prioritizes user comfort, significantly reducing fatigue during extended periods of operation on the job site.

Technical Specifications
