

Hardened Steel Pickaxe with Dual Head

This pickaxe is made with a dual-head design, featuring a pointed end for breaking and a flat end for prying. It is constructed from hardened steel for strength and long-lasting use.

Product Overview

Hardened Steel Dual-Head Pickaxe

This heavy-duty pickaxe is engineered for demanding tasks, featuring a versatile dual-head design with a pointed end for breaking hard surfaces and a flat end for prying. Constructed from hardened steel, it offers exceptional durability and long-lasting performance for professional demolition, excavation, and landscaping applications. The head is designed for secure attachment to a standard wooden handle, ensuring reliability on the job site.
