

Hardwood Carpeted Moving Dolly

This moving dolly features a hardwood platform with a carpeted surface. The casters are secured with nylon locknuts for stability.

Product Overview

Professional Moving Solution

This hardwood carpeted moving dolly provides a secure and reliable way to transport heavy items across workshops, schools, and offices. The durable birch hardwood body ensures longevity, while the integrated carpeted ends protect delicate cargo from scuffing and marring. It is an essential tool for environments requiring safe and efficient material handling.
