

HDMI 2.1V High-Speed Cable

This is a high-speed HDMI 2.1V cable supporting 3D video and resolutions up to 8K at 60Hz and 4K at 120Hz. It offers a 48Gbps bandwidth, ensuring optimal signal transfer for high-performance audio-video applications.

Overview

High-Performance HDMI 2.1 Connectivity

This high-speed HDMI 2.1V cable is engineered for demanding audio-video environments, supporting advanced resolutions including 8K at 60Hz and 4K at 120Hz. With a massive 48Gbps bandwidth, it ensures seamless data transfer for high-fidelity gaming, professional displays, and home cinema setups. The robust 30AWG construction provides reliable signal integrity for long-term professional use.
