

HDPE PP PVC Pipe Fitting Mould

This mould is used for creating HDPE, PP, and PVC pipe fittings. It is suitable for manufacturing fittings with diameters ranging from 90mm to 800mm.

Product Overview

Precision Engineered Fitting Moulds

These high-performance pipe fitting moulds are engineered for the reliable production of HDPE, PP, and PVC components. With over two decades of specialized manufacturing experience, these moulds are designed to meet rigorous industrial standards for precision and durability. Each unit undergoes strict quality inspection to ensure consistent performance in high-volume injection molding environments.

Technical Capabilities

HDPE Diameter Range

90 mm Minimum Diameter	800 mm Maximum Diameter
----------------------------------	-----------------------------------

Supported Materials

HDPE, PP, PVC, PPR

Quality Assurance

Rigorous testing process for HDPE fittings, including elbow configurations up to 630mm, performed prior to shipment.

Testing Capacity	Capable of testing up to 40 sets of HDPE fittings simultaneously, including elbows up to 630mm.
Manufacturing Experience	20 years
