

Heat Shrinkable Power Cable Accessories

These are 1KV series heat shrinkable power cable accessories. They include MPG series heat shrinkable tubes for busbars and MPH series heat shrinkable joint sheaths.

Product Overview

1KV Series Heat Shrinkable Power Cable Accessories

These heat shrinkable power cable accessories are designed for reliable insulation and protection of busbar connections. The series includes the MPG line of heat shrinkable tubes and the MPH line of joint sheaths, available in various configurations including L, T, I, and X forms. These components are essential for maintaining electrical integrity in complex busbar arrangements, offering versatile fit sizes to accommodate different bus row specifications.

Technical Specifications

MPG Series Tube Specifications

Type	Fit for Busbar (mm)	Inner Diameter After Recovery (mm)
MPG-25/10	20-30	10
MPG-30/12	30-40	12
MPG-40/16	40-50	16
MPG-50/20	50-60	20
MPG-65/25	60-70	25
MPG-75/30	80-90	30
MPG-85/35	90-100	35
MPG-100/40	120	40
MPG-120/50	140	50
MPG-150/60	180	60

MPH Joint Sheath Configurations

- L form joint sheath (Red)
- T form joint sheath (Yellow)
- I form joint sheath (Green)
- X form joint sheath (Red)

Voltage Rating
