

# Heated and Cooled Display Showcase

This display showcase features both heating and cooling capabilities for versatile use. It is designed with a transparent door, internal lighting, and adjustable shelves to optimize product presentation.

## ADDITIONAL IMAGES

## Overview

### Versatile Thermal Display Solution

This dual-function display showcase offers both cooling and heating capabilities, making it an ideal solution for retail environments requiring flexible temperature control. Designed with a thick foam layer for superior insulation and double-layer hollow glass doors to prevent condensation, it ensures optimal product visibility and energy efficiency. The unit is equipped with vertical LED lighting and adjustable shelving, providing a professional presentation for beverages, snacks, or other temperature-sensitive merchandise.
