

Heated Hair Curling Iron with Clamp

This is a heated curling iron used to style hair. It features a clamp to hold hair in place around the barrel for creating curls and waves.

Product Overview

Professional Hair Styling Performance

This heated hair curling iron is designed for efficient personal hair care, featuring a 19mm heating barrel suitable for creating precise curls and waves. Built with reliable PTC heating technology and a durable PA66 shell, it ensures consistent performance and safety during use. The inclusion of a secure clamp and a compact, lightweight design makes it an ideal tool for everyday styling needs.
