Product Overview

Professional Styling Efficiency

This hair straightening brush is engineered for efficient styling, combining the convenience of a brush with the performance of a high-heat straightener. Featuring advanced PTC heating elements and precise digital temperature control, it delivers consistent results while maintaining user safety through a cool-touch exterior. Designed for global versatility, it supports worldwide voltage and includes a 360-degree swivel cord for effortless maneuverability.

Technical Specifications

Maximum Temperature

230 °C
Max Heat

Power Consumption	60 W
Operating Voltage	110-240V
Frequency	50/60Hz

Features & Design

Heating Element	PTC Fast Heating
Display Type	LCD Digital Display
Safety Features	Cool Touch Surface, Worldwide Voltage Support

Ergonomics

Cord Type	360° Swivel Cord
Storage	Yes

Identification

Model Number	TA-1523T
