Product Overview

Professional Heated Towel Drying Rack

This high-performance heated towel rack is engineered for efficient heating and drying in professional bathroom settings. Built with a robust mild steel structure featuring patented welding for superior sealing, it ensures long-term reliability and comfort. The unit is versatile, supporting both central hydronic and electric heating systems, making it an ideal choice for diverse architectural requirements.

Technical Specifications

Finishing Options

- Chrome Plating (Cr 6+ / 3+)
- Customized Powder Coating

Compliance & Certifications

EN442 Standard, ISO 9000, ISO 14001, SA8000

Material

Mild Steel (SPCC / Q195)

Heating Systems

Hydronic, Electric
