Product Overview

Premium Heated Towel Drying Rack

This high-performance towel warming rack provides efficient heating for bathroom environments, ensuring towels remain warm and dry. Constructed from durable mild steel (SPCC/Q195), it features advanced welding technology for superior structural integrity and optimal sealing. Designed to meet international safety and quality standards, this unit supports both central hydronic and electric heating configurations.

Technical Specifications

Certifications

EN442 • ISO 9000 • ISO 14001 • SA8000

Material

Mild Steel (SPCC / Q195)

Heating Types

Central Hydronic, Electric Heating

Finishing

Chrome Plating, Powder Coating
