

# Heater Tubular Steel Frame with Hanging Bracket

This heater frame is constructed from durable tubular steel and finished in yellow. It includes a central hanging bracket and horizontal support bars for enhanced stability.

## Product Overview

### Durable Heater Tubular Frame

This versatile tubular steel frame is engineered to provide robust support and portability for heating units. Featuring a distinct black and yellow color scheme, it is designed for both indoor and outdoor environments. The seamless steel construction ensures durability, while the integrated hanging bracket allows for flexible mounting options.

## Physical Dimensions

Dimensions (L x W x H)	790 x 360 x 335 mm
Weight	5 kg

## Material and Design

Color	Black • Yellow
Material	Seamless steel

## Usage Characteristics

Usage Environment	Indoor, Outdoor, Portable
Model Identifier	LDT-8
