

Heavy Duty American Type Pipe Wrench

This heavy-duty pipe wrench is designed for gripping and turning pipes and fittings. It features a robust construction for durability and high torque applications.

Product Overview

Heavy-Duty American Type Pipe Wrench

This heavy-duty American type pipe wrench is engineered for reliable gripping and turning of pipes and fittings in demanding environments. Featuring robust construction, it is built to withstand high torque applications typical of plumbing, construction, and industrial maintenance tasks. The adjustable jaws ensure a secure and versatile grip across various pipe diameters.
