

Heavy-Duty Angle Grinder

This angle grinder is designed for heavy-duty cutting, grinding, and polishing. It features a robust motor for efficient material removal and durable construction.

Overview

Heavy-Duty Performance

This heavy-duty angle grinder is engineered for demanding cutting, grinding, and polishing tasks in professional environments. With a robust 2020W motor, it delivers consistent power for efficient material removal on tough surfaces. Its durable construction ensures long-lasting performance, making it an ideal choice for metalworking, construction, and industrial maintenance applications.

Technical Specifications

Rated Power Input	2020 W
Rated Speed	8300 r/min
Net Weight	5 Kg

Dimensions

Max Wheel Diameter	180 mm
Hole Diameter of Wheel	22 mm

Key Features

Suitable Applications	Metalworking, Construction, Maintenance, Cutting, Grinding, Polishing
