

Heavy Duty Blue Series Battery

Heavy duty batteries are designed with a unique construction to ensure excellent performance. These batteries are leakage-proof, making them suitable for medium and low drain electronic products.

Product Overview

Reliable Power Solution

These heavy-duty batteries are engineered with a unique construction to deliver consistent performance for everyday electronics. Designed specifically for medium and low-drain devices, they feature a durable metallic jacket and excellent leakage-proof technology. With an extended shelf life and compliance with ROHS standards, they offer a dependable power source for a variety of professional and consumer applications.

Technical Specifications

Voltage

1.5 V

Nominal Voltage

Compliance

ROHS Compliant • 0.00% Mercury

Available Sizes

AA (UM-3), D (UM-1/R20)

Key Features

Performance Benefits

- Excellent leakage-proof construction
- Suitable for medium and low drain devices
- Long service shelf life
- Durable metallic jacket

Safety Information

Handling Precautions

- Do not recharge
- Do not dispose of in fire
