

Heavy-Duty Bolt Cutter

This heavy-duty bolt cutter is designed for cutting bolts, chains, padlocks, and threaded rods. It features hardened steel jaws for durability and cutting performance.

Product Overview

Heavy-Duty Bolt Cutter

Designed for demanding cutting tasks, this heavy-duty bolt cutter is engineered for cutting bolts, chains, padlocks, and threaded rods. It features hardened steel jaws that ensure exceptional durability and consistent cutting performance. The long-handle design provides increased leverage, allowing professionals to achieve efficient cuts with minimal physical effort. Additionally, the handles are coated with a non-slip grip, enhancing user comfort and safety during operation.

Technical Specifications

Handle Features

- Extended leverage design
- Non-slip grip coating

Cutting Applications

Bolts, Chains, Padlocks, Threaded Rods

Jaw Material

Hardened Steel

Usage

Common Industries

Construction • Demolition • Maintenance
