

Heavy-Duty Bungee Cord with Metal Hooks

This bungee cord is designed with durable metal hooks for secure attachment. It features a braided outer layer, enhancing its strength and resistance to abrasion.

Product Overview

Industrial Strength Securing Solution

This heavy-duty bungee cord is engineered for demanding industrial and logistical environments, providing reliable tension for securing cargo, tarps, and equipment. Featuring a durable braided outer layer, it offers superior resistance against abrasion and environmental wear. Equipped with robust metal hooks, this cord ensures a secure attachment for diverse professional applications.

Technical Details

Key Features

- Braided outer layer for high abrasion resistance
- Heavy-duty metal hooks
- Optimized for load securing and cargo stability
- Suitable for tarp and equipment fixation

Item Number

901D

Applications

Primary Applications

Cargo Securement, Tarp Fixation, Equipment Tie-down, Industrial Logistics
