

Heavy-Duty Caulking Gun

This heavy-duty caulking gun features a durable barrel and a smooth rod mechanism for consistent dispensing. It includes a built-in puncture tool for easy cartridge opening and is designed for professional use with standard-size cartridges.

Overview

Professional Performance

This heavy-duty caulking gun is engineered for reliable, professional-grade application of sealants and adhesives. Featuring a robust construction with a durable red barrel and ergonomic black handle, it ensures long-lasting performance in demanding work environments. The smooth rod mechanism provides consistent material dispensing, while the integrated puncture tool simplifies cartridge preparation for improved efficiency on the job site.
