

Heavy Duty Caulking Gun for Sealant Application

This heavy-duty caulking gun is designed for dispensing sealants and adhesives from standard cartridges. It features a durable metal frame, a smooth rod mechanism, and an ergonomic handle.

Product Overview

Professional Sealant Application

This heavy-duty caulking gun is engineered for the precise and consistent application of sealants and adhesives. Constructed with a durable metal frame, it is built to withstand the rigors of professional job sites while providing reliable performance. The smooth rod mechanism ensures steady material flow, and the ergonomic handle design reduces fatigue during extended use.
