

Heavy-Duty Construction Vehicle for Earthmoving

This heavy-duty construction vehicle is designed for loading, excavating, and bulldozing tasks. It is suitable for use in construction sites, mining operations, and other heavy-duty applications.

Overview

Heavy-Duty Earthmoving Solution

This heavy-duty construction vehicle is engineered for demanding tasks including loading, excavating, and bulldozing. Designed for versatility, it features a large-capacity bucket for efficient material handling and robust, terrain-ready tires. It is an ideal asset for intensive construction sites and mining operations requiring reliable performance.

Key Specifications

Operational Features

- Large-capacity loading bucket
- Robust all-terrain tires
- Enclosed operator control cabin

Model Number	KWS955TII
Primary Applications	Construction, Mining, Earthmoving, Material Handling
