

# Heavy-Duty Cotton Wet Mop with Metal Handle

This is a heavy-duty mop designed for commercial and industrial cleaning applications. The mop head is made of absorbent white cotton strands, securely attached to a plastic frame.

## Product Overview

### Professional Cleaning Performance

This heavy-duty wet mop is engineered for demanding commercial and industrial cleaning environments. Featuring a robust metal handle and high-absorbency cotton strands, it is designed to withstand frequent, rigorous use. The ergonomic design ensures comfortable handling, making it an essential tool for maintaining various floor surfaces in high-traffic facilities.
