

Heavy Duty Crane Scale with LED Display

This heavy-duty crane scale offers easy operation and rugged construction. It has a capacity from 20t to 50t and a remote control distance over 6m.

Product Overview

Heavy Duty Crane Scale

This heavy-duty crane scale is engineered for accurate and reliable weight measurement in demanding industrial environments. Designed with rugged construction for long-lasting performance, it is ideal for factories, warehouses, and construction sites. The system features a clear, high-visibility LED display and an integrated load cell, ensuring precise monitoring even under heavy operational loads.

Performance Specifications

Key Operational Metrics

300 %

Overload Safety

60 hours

Battery Life

25 m

View Distance

Capacity Range	20t to 50t
Overload Safety	300 %
Battery Life	60 hours

Display & Interface

Display	5-digit 30mm LED
Viewing Distance	25 m
Remote Control Range	6 m

Features

Key Features

- Rugged industrial construction
- Integrative load cell
- Linear calibration for precision
- Low power indicator
- Overload warning alert
