

Heavy-Duty Diagonal Cutting Pliers

These heavy-duty diagonal cutting pliers are designed for cutting through various materials. They feature hardened cutting edges for durability and precision, as well as insulated handles for user safety.

Product Overview

Professional Grade Cutting Solution

These heavy-duty diagonal cutting pliers are engineered for demanding applications in construction, electrical work, and general maintenance. Featuring hardened cutting edges, they provide exceptional durability and precision for clean cuts across various materials. Designed with user safety in mind, the pliers include insulated handles, ensuring reliable performance in professional environments.

Technical Features

Key Features

- Hardened cutting edges for extended durability
- Insulated handles for enhanced user safety
- Robust construction for heavy-duty applications
- Precision cutting capability

Safety Features

Insulated Handles

Applications

Electrical Work, Construction, General Maintenance
