

Heavy-Duty Electric Rotary Hammer Drill

This high-performance electric hammer is designed for heavy-duty drilling and demolition tasks. It features a robust motor, ergonomic handle, and vibration reduction technology for comfortable operation on concrete, masonry, and other tough materials.

Product Overview

Heavy-Duty Rotary Hammer

This high-performance electric hammer is engineered for demanding drilling and demolition tasks in concrete, masonry, and other tough materials. It features a robust motor and vibration reduction technology to ensure reliability and operator comfort in challenging work environments. With its variable speed control and SDS chuck system, it offers both precision and efficiency for professional applications.

Technical Specifications

Performance Metrics

1200 W Input Power	780 rpm No Load Speed
------------------------------	---------------------------------

Electrical Requirements

Parameter	Value
Voltage	110 / 230V
Frequency	50 / 60Hz

Market Availability

Export Regions	Middle East, Europe, North America, South America
