Product Overview

Heavy-Duty Professional Extension Cord

Designed for demanding professional environments, this heavy-duty 50-foot extension cord features a rugged rubber jacket that outperforms standard SJTW cords in abrasion resistance. It is engineered to withstand harsh conditions, including extreme temperatures and exposure to oil, making it an ideal choice for workshops and outdoor job sites. With a lighted connector and clear molded plug, this cord ensures both safety and high visibility during operation.

Electrical Specifications

Rated Voltage	125 V
Rated Current	15 A
Maximum Wattage	1875 W

Construction & Durability

Wire Type	12/3 SJOOW
Length	50 Ft
Resistance Features	Oil Resistant, Abrasion Resistant, Weather Resistant

Operational Environment

Operating Temperature

-40 °F

Min Temp

221 °F

Max Temp

Safety & Certification

Certifications

UL Listed

Key Safety Features

- Lighted connector for power status indication
- Clear molded plug for visibility
- Rubber jacketed construction for harsh environments
- Integrated safety warnings on cord
